

GIN & PROSECCO MENU

We stock over 40 gins from around Great Britain and the world

Gin is a spirit which derives its predominant flavour from juniper berries. From its earliest origins in the Middle Ages, gin has evolved from a herbal medicine to most popular spirit in the world. Gin became popular in Great Britain when William of Orange, leader of the Dutch Republic, occupied the English, Scottish and Irish thrones with his wife Mary. Gin is one of the broadest categories of spirits, represented by products of various origins, styles, and flavour profiles that all revolve around juniper as a common ingredient.

Gin is a tasteless spirit much like vodka until botanicals are added to create its unique flavour. Junipers are always the predominant flavour, but other botanicals are added to bring out different smells, flavours and tastes, such as heathers, ginger, dandelion, angelica roots, liquorice, coriander seeds, orris root and lavender are just a few of many.

PROSECCO

Prosecco is an Italian sparkling white wine. It is made from Glera grapes, formerly known also as Prosecco, but other grape varieties may be included. The following varieties are traditionally used with Glera up to a maximum of 15% of the total: Verdiso, Bianchetta Trevigiana, Perera, Glera lunga, Chardonnay, Pinot Bianco, Pinot Grigio and Pinot Nero.

The name is derived from that of the Italian village of Prosecco near Trieste, where the grape may have originated. We have chosen one of the best Prosecco on the market. Scavi and Ray produce a number of different styles of wine you should treat yourself you really can tell the difference

SCAVI AND RAY

Spumante	Scavi and Ray's entry level Prosecco
Rose	Ruby coloured rose that sparkles on the tongue.
Ice	Exquisite taste experience with hints of exotic fruits enjoyed over ice.
